COMPANY PROFILE

Wuhan Rongfeng Intelligent Industry Co., Ltd. was established in September 2019 and is located at No. 123 Hui'an Avenue, Xingou Town, Dongxihu District, Wuhan. The total area of offices, dormitories and factories is more than 56,000 square meters. The company is a production-oriented enterprise integrating R&D, design, production and sales. It mainly produces plastic covers, paper covers, corrugated sheets and paper packaging and other products. The company is equipped with professional sales, production and management talents, has advanced equipment and technology at home and abroad, and has excellent product quality. It has customers at home and abroad and is exported to Southeast Asia, America, Africa and other countries. It has gained a good reputation in domestic and foreign markets. The group Since the model development, it has nearly 260 technical talents of various types. It has 5 production-oriented factories and has won 16 invention patents. It is a national high-tech enterprise.

Among them, the most representative Rongfeng system is a warehouse management APP. You can check inventory anytime and anywhere without being in the warehouse. The system uses integrated management technology to allow order data to flow freely between modules and open up corporate data. Based on the system, order-related business data, operations management, procurement management, order management, production management, financial management, inventory inquiry, statistics, etc. can be realized with one-click operation of data and processes.

The company's annual sales are nearly 200 million yuan. 60% of some products are exported to more than 60 countries around the world. The development of the company always adheres to the principle of quality first and people-oriented. The company strives for survival by quality and efficiency by service. In the spirit of sincere cooperation, it sincerely dedicates high-quality products to the majority of users. Our company uses its own advantages to continuously seize business opportunities and meet new challenges. Now it is moving towards the goals of modern management, enterprise scale, product branding, business diversification, and market internationalization.

Since its establishment, the company's development has always adhered to the concept of "quality first, people-oriented, quality for survival, service for efficiency", and wholeheartedly provides customers with the highest quality products with stable quality, thoughtful service, and reasonable prices.

GENERAL INSTALLATION

The company has built 10000 square meters in accordance with GMP standards of 100,000 grade aseptic production workshop. Is a research and development, design, production, sales in one of the production enterprises, mainly producing plastic cover, paper cover, corrugated sheet and paper packaging products. The company is equipped with professional sales,production, management personnel,with advanced equipment and technology at home and abroad, the product quality is excellent,customers all over the world,exported to Southeast Asia, America, Africa and other countries, in the domestic and foreign markets have won a good reputation.Since its establishment, the company has always adhered to the concept of "quality first, people-oriented, quality for survival, service for efficiency", with stable quality, thoughtful service reasonable price, dedicated to provide our customers with the best quality products.

CORPORATE CULTURE

Corporate philosophy

01

Taking green environmental protection as the core and quality and reputation as the foundation.

Service Concept

02

Customer first, honest service

Corporate purpose

03

Quality first, people-oriented, quality for survival, service for efficiency

Enterprise spirit

04

Pragmatic, innovative and united

ENTERPRISE TEAM

- 01** We have obtained a number of patents, has a wealth of research and development and production experience, can design and manufacture products that satisfy customers according to needs.
- 02** We are a production team of more than 200 people, including more than 20 years of experience in the professional boot master, in order to ensure the production and quality, at the same time, to ensure that customers ordered products faster, more timely delivery.
- 03** We strictly in accordance with the requirements of quality inspection, do not miss a lot of inspection, to ensure the quality of factory. To first-class quality, first-class efficiency, first-class service, to provide customers with first-class products
- 04** Sales staff always adhering to the "quality first, people-oriented, quality of survival, service and efficiency" concept, dedicated to provide our customers with the best quality products.
- 05** We have a perfect service system, to provide customers with high quality pre-sale, sale, after-sales service, so that every customer can feel our sincere service.

CUSTOMIZED PROCESS

OUR ADVANTAGE

Professional customization

We have a strong R & D team, and according to the user provided drawings and samples, produce various models of products.

01

Super quality and competitive price

We have our own office building and production workshop, big production scale, fast production speed, factory direct sales, low price and quality more secure.

02

A great variety of models

Our products have various styles, complete specifications, safety and reliability, and can meet the different needs of different users

03

First-rate service

We are based on the domestic and foreign markets, products meet international standards, one to one professional service before and after sales.

04

Fast delivery

We cooperate with major logistics companies to provide logistics services to customers quickly and economically, and deliver goods to the designated place within the specified time.

05

Going green and environmental protection

We use food grade raw materials, non-toxic and harmless, in line with national standards, environmental hygiene without odor, can be used directly.

06

MAIN BUSINESS

- No leakage (product and cup body seamless fit, good sealing, not easy to fall off, better seepage resistance)
- Meticulous workmanship (product texture is smooth, the edge line is neat and beautiful)
- Heat and cold resistance(Products take food grade raw materials, environmental hygiene, hot and cold can be used)
- Strong toughness (Product toughness is strong, kneading is not easy to deform to break)

Plastic lids

Paper cover

- Heat insulation and anti-expansion (The product adopts a double-layer design with four holes inside and two holes outside, which has better air permeability and prevents thermal expansion and leakage)
- Strong and compression resistance(The product adopts coil design, the cup body and cover are tight and firm and not easy to deform)

- Hand feel and drape(The products have many types such as ripple and vertical grain, three-dimensional texture, comfortable grip)
- Heat insulation and anti-scalding(The product is made of double thickened paper , it can effectively prevent heat insulation and scalding)
- Elegant appearance (Products adopt flexo printing and die cutting technology , Parameter standard , Beautiful printing without odor)

Corrugated paper cup fan sheet

Paper packaging

- The main production is disposable food grade packaging paper boxes, cake boxes, paper bags, hamburger boxes, pizza boxes and other baking products, can be customized if provide logo)
